Artificial Intelligence (AI) Scribe Consent and Authorization

Purpose of AI Scribe Technology

- The AI scribe does not diagnose conditions, make treatment recommendations, prescribe medications, or replace your healthcare provider.
- Your provider reviews, edits, and approves all documentation before it becomes part of your medical record.
- Audio from your visit is used only to generate the clinical note.
- Audio recordings are deleted after note generation in accordance with system retention policies.
- Information processed through the AI scribe is handled in compliance with HIPAA and applicable privacy and security requirements.

Patient Rights

Your participation is voluntary. You may decline the use of the AI scribe at any time without affecting the quality of care you receive.
